

KÜBLER ICONIQ PRO

ON TOP FORM. EVERY DAY.

INSPIRED BY YOUR JOB.

A photograph of a modern industrial factory floor. Several bright orange robotic arms are visible, some in the foreground and others in the background, working on a production line. The arms are complex, with various joints, cables, and sensors. The background shows a large, well-lit industrial space with structural beams and other machinery.

KÜBLER WORKWEAR

INSPIRED BY YOUR JOB.

If you work hard, you also deserve the best workwear. Since 1956 KÜBLER has made every effort to ensure that our workwear supports the wearer in all respects. Inspired by the challenges of daily working life, we pursue the vision of developing extraordinary products which purposely support our physical processes. With a unique combination of intelligent functions, select materials, modern design and clever details, we ensure that industrial workers, craftsmen and labourers feel comfortable at work – the optimal condition for consistent top performance. Our hard work has finally paid off; KÜBLER is one of the world's leading providers of workwear. Look forward to a whole new work atmosphere!

KÜBLER ICONIQ PRO AT A GLANCE

Developed for daily usage, optimised for industrial laundry and made to reliably accompany you through everyday working life.

WIR FÜHREN PRODUKTE MIT DEM SIEGEL:

GREEN BUTTON 2.0

The Grüner Knopf is a government seal for sustainable textiles. It systematically checks whether companies take responsibility for compliance with human rights and environmental standards in textile supply chains. In addition, recognised quality marks must be used to demonstrate that the product in question has been produced sustainably.

We have passed the test for the Grüner Knopf 2.0 and thus meet the stricter requirements of the textile seal. With the seal, we also demonstrate that we are committed to fair wages, set sustainability goals and systematically analyse, identify and address risks in our textile supply chains. In future, our certificates and products with the Grüner Knopf label will only consist of approved fibres.

OEKO-TEX® STANDARD 100

Our goal is to offer products that are harmless to health and highly functional at the same time. It is very important that the materials used are well tolerated by the skin. The clothing must not contain any substances that are harmful to health, especially if it is worn for long periods of time during heavy physical work. The clothing must not contain any substances that are harmful to health, especially if it is worn for long periods of time during heavy physical work. Our products are therefore tested for harmful substances and almost all of them have the OEKO-TEX® Standard 100 certificate.

OEKO-TEX® Standard 100 is an independent, internationally recognised testing and certification system. The world's leading health label for textiles stands for "textile confidence" like no other. Products with the OEKO-TEX® certificate have been tested for harmful substances by independent testing institutes. These tests are bound by fixed limit values, some of which are higher than those required by law.

6:00

A new work day begins. Your workwear hangs in your locker – clean, functional and ready for any challenge.

MADE FOR EVERY DAY. AND FOR TOMORROW.

KÜBLER ICONIQ PRO

Working requires commitment. Every day. To yourself, your team, your company.

KÜBLER ICONIQ PRO is more than just workwear – it's your reliable partner for when it matters. Redesigned for everyone who values suitability for industrial laundry, increased comfort, clear design and an excellent price-performance ratio. Thanks to the robust materials, clever pocket solutions and elasticated waistbands, KÜBLER ICONIQ PRO moves with you without restricting you.

The sporty, perfect fit supports you during your everyday working life. Designed for everyone who needs workwear that can keep up with them, it's sturdily made, flexible in engineering and well-maintained when serviced. KÜBLER ICONIQ PRO delivers long-lasting performance. Wash after wash, and day after day, KÜBLER ICONIQ PRO demonstrates its core strengths – hard-wearing and sustainable without compromising on functionality. To achieve great things you need workwear that grows with every use. Turning workwear into real labour.

How does KÜBLER ICONIQ PRO perform on the job? See for yourself and visit our YouTube channel.

15:30 uur

Thanks to the ergonomic tailoring and the elasticated waistband insert, KÜBLER ICONIQ PRO moves with you without restricting you. Full control, even just before quitting time.

6:30

A quick glance at the shift plan and then you're off - in a slim fit, sporty design that fits you perfectly.

12:00

Lunch time! Time to take a breath and fill your tank. You still feel fresh even after such intensive hours thanks to the breathable material, so you are relaxed when you keep going.

14:30

Every detail counts. Thanks to the clever pocket solutions everything is within reach without having to search for long. You remain fully focused when working on the machine.

9:00

Every movement counts and everything must be just right. Your workwear supports you in this - comfortable, reliable and allows for utmost concentration.

DESIGN- BENEFITS

EASY BRAND

Your brand. Your impact. Spacious areas offer ample room for individual finishing using embroidery, printing or badges. The cleverly designed, loosely incorporated pocket pouches on the jacket make finishing particularly easy. Your brand will be optimally visible.

STYLE POINT

Sporty. Modern. Exact. Four proven colour combinations can be easily combined. Sporty contrast stitching provides timeless accents. The new, black KÜBLER labels provide stylish emphasis. The slim, close-fitting cut lends the outfit a timeless look and with specific ladies' versions of our jacket and trousers each item fits like a glove.

REFLECT IT

Visible when it matters. Discrete reflective elements also emphasise the sporty silhouette and draw attention. Additional reflective stripes may be subsequently added on request for addition protection with which the workwear fulfils the requirements of EN 17353:2020 type B2. Ideal for everyone who is frequently out during dusk and darkness.

FUNCTIONAL BENEFITS

SMART POCKET

Practical organisation. Well thought out pocket solutions ensure that all those important items can be accessed quickly but are still kept safely secured. Zips and snap fasteners reliably keep everything in its place.

HARD ZONE

Robust and durable. The hard-wearing fabric withstands the challenges of daily working life and the two-ply yarn is particularly resilient for serging seams. This means that you are always well-equipped

SMART REPAIR

Sustainably considered. Zips and other details are attached in such a manner so that they can be easily repaired when required. This extends the lifespan of your workwear. Good for you, even better for the environment.

PRO CLEAN

Clean and hard-wearing. KÜBLER ICONIQ PRO is designed to be suitable for industrial laundry and is certified in accordance with EN ISO 15797. Premium materials guarantee durability. Burnished zips prevent unsightly flaking and the reflective elements remain fixed in place and functional even after several washes.

COMFORT ZONE

Comfortable. Practical. Exact. The ergonomic tailoring, elasticated waistband insert and intelligently positioned pockets allow you to relax when working regardless of your position. Particularly stressed sections are finished without seams to provide maximum comfort and avoid pressure points. Trousers fit perfectly thanks to the new sizing system with three length options.

COLLECTION HIGHLIGHTS

MORE MOVEMENT.

The fabric construction allows for mechanical elasticity even without the use of elastane. This provides significantly more freedom of movement and increased comfort even in dynamic uses. The material remains durable and provides impressive flexibility for everyday working life.

CLEVER POCKETS.

Various pocket solutions with velcro, snap fastener or zip closure provide space for everything you need to have at hand. Flexible and suitable for everyday use, the many pockets are both safely secured and quickly accessible.

STRIKINGLY SPORTY.

Contrasting and reflective elements emphasise the sporty silhouette and attract attention. Additional reflective stripes may be subsequently applied on request for additional protection. This fulfils the requirements of EN 17353:2020 type B2 for improved visibility in dusk and darkness.

DURABILITY SOLVED.

Burnished zips on the jacket prevent unsightly flaking and remain permanently appealing. They are attached in such a manner so that they can be quickly and easily swapped out when required meaning the garment has a longer lifespan.

**MODERN.
SPORTY.
CONSIDERED.**

The jacket combines clear design with practical details – for everyone who expects more in everyday life.

STANDARDS

EN ISO 15797 INDUSTRIAL WASHING AND FINISHING PROCESSES FOR TESTING WORKWEAR

The standard simulates the effects of industrial washing of workwear using described procedures. There are eight different washing procedures of the washing-centrifuge type. Tumble drying or tunnel cabinet finishing are provided for drying. It is technically impossible to simulate an industrial washing procedure in a laboratory setting. The standard only provides an approximation in a medium-sized test facility in order to carry out the assessment. In order to definitively assess the compatibility of the product and the washing procedure, the standard advises testers that the workwear in question must be tested using the actual industrial washing facility and the procedures intended for use.

WORKWEAR WITH THE FOLLOWING ICON HAS BEEN TESTED BY AN INDEPENDENT TESTING INSTITUTE IN ACCORDANCE WITH EN ISO 15797.

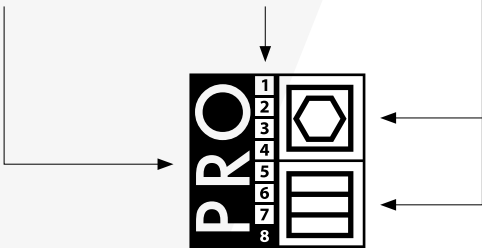

PROFESSIONAL INDUSTRIAL LAUNDRY
Textiles which are suitable for professional cleaning are shown by a rectangle with **PRO** in inverted capital letters.

WASHING
Each number stands for one of the eight washing procedures described in **EN ISO 15797**. The number of the process that the textile has been tested with has a dark background.

DRYING
These symbols describe which drying procedures the textile has been tested with.

TUMBLE DRYING
Tumble drying is shown as a square with a hexagon in it.

TUNNEL/CABINET FINISHING
This drying method is shown by a square divided into three equal triangles.

EN 17353 PROTECTIVE CLOTHING- ENHANCED VISIBILITY EQUIPMENT FOR MEDIUM RISK SITUATIONS

Protective clothing certified in accordance with this standard is suitable for individuals working in all areas where enhanced visibility is required, but where high visibility clothing is not required as per EN ISO 20471.

THERE ARE THREE DIFFERENT TYPES:

 **TYPE A:** The risk of not being seen exists only at daylight conditions. Only fluorescent material is used as the enhanced visibility component.

 **TYPE B:** The risk of not being seen exists only at dark conditions. Only retroreflective material is used as the enhanced visibility component.

 **TYPE AB:** The risk of not being seen exists during daylight, twilight and dark conditions. Both retroreflective and fluorescent material are used as enhanced visibility components.

EXPLANATION OF SYMBOLS

-  **WATER REPELLENT**
-  **WINDPROOF**
-  **BREATHABLE**
-  **MULTIFUNCTIONAL**
-  **STRETCH**
-  **DURABLE**
-  **HIGH VISIBILITY**

The KÜBLER ICONIQ PRO products with additional reflective stripes are certified according to EN 17353:2020 type B2. The additional reflective stripes are not a design feature, but provide extra protection.

AVAILABLE ON REQUEST.

OUR NEW SIZING SYSTEM. FITS. EXACTLY.

Fewer compromises on size means more joy when wearing. We have overhauled our sizing system on the basis of the most recent size survey by iSize to make our garments even more comfortable and offer the perfect fit. This modern 3D body scanning technology mirrors the dimensions of today's bodies even more precisely. In this way we ensure that our workwear fits perfectly – for maximum comfort, optimal functionality and so it feels good while working.

All relevant body measurements for the respective sizes can be found in our new size chart. Please pay attention to our measuring tips to ensure that your new favourite workwear will fit perfectly.

From now on we are working with an expanded standardised measurement concept which provides even more individual solutions in combination with three different lengths:

N = Standard

L = Long

K = Short
